# Annexure: AI Disclosure

I, Fay-yaad Ahmed Parker, ST10434066, acknowledge that I used ChatGPT (OpenAI) as a learning and support tool during the development of my PROG6212 Part 2 – Contract Monthly Claim System (CMCS) project.

ChatGPT assisted me with:

- Troubleshooting and debugging errors that occurred during development
- Improving and correcting parts of my HTML and Razor views
- Understanding and applying unit testing using xUnit and Entity Framework's InMemory database

All final coding decisions, implementation, and testing were completed by me. The assistance received was limited to clarification, syntax guidance, and resolving technical issues in alignment with The IIE's Guidelines for Responsible AI Use.

| PART 2 | | | | | |
|---|---|---|---|---|---|
| **Programme Coordinators and Managers' View:**<br><br>**Design of View**<br><br>**[20 Marks]** | • The design of the view for coordinators and managers is unclear or disorganised, making it difficult to verify claims. | • The design of the view is somewhat clear but lacks organisation or user-friendly features. | • The design of the view is clear and organised, facilitating easy verification of claims. | • The design of the view is highly intuitive and well-structured, enhancing the verification process significantly. | |
| | **0 – 9 Marks** | **10 - 14 Marks** | **15 - 17 Marks** | **18-20 Marks** | |
| **Marking Criteria** | **Does not meet the required standard** | **Meets the required standard** | **Partially exceeds the required standard** | **Greatly exceeds the required standard** | **Feedback** |
| **Lecturers' Document Upload:**<br><br>**Feature Implementation**<br><br>**[20 Marks]** | • The document upload feature is missing or does not work properly, failing to allow lecturers to upload supporting documents. | • The document upload feature is partially implemented or has some functionality issues. | • The document upload feature is implemented effectively, allowing lecturers to upload documents with ease. | • The document upload feature is implemented exceptionally well, providing a seamless experience for lecturers and ensuring secure storage of uploaded documents. | |
| | **0 – 9 Marks** | **10 - 14 Marks** | **15 - 17 Marks** | **18 - 20 Marks** | |

| PART 2 | | | | | |
|---|---|---|---|---|---|
| **Lecturers' Document Upload:**<br><br>**Error Handling and Display**<br><br>**[10 Marks]** | • Error handling is non-existent or ineffective, leading to frequent crashes or incorrect information display. | • Error handling is rudimentary, with limited effectiveness in catching and handling exceptions. | • Error handling is implemented effectively, catching most exceptions and displaying meaningful error messages. | • Error handling is implemented exceptionally well, ensuring the application remains stable and responsive even in the face of errors or exceptions. | |
| | **0 – 4 Marks** | **5 - 7 Marks** | **8 - 9 Marks** | **10 Marks** | |
| **PART 2** | | | | | |
| **Marking Criteria** | **Does not meet the required standard** | **Meets the required standard** | **Partially exceeds the required standard** | **Greatly exceeds the required standard** | **Feedback** |
| **Claim Status Tracking:**<br><br>**Implementation of Tracking System**<br><br>**[10 Marks]** | • The tracking system for claim status is not implemented or does not update accurately, leading to inconsistencies in status representation. | • The tracking system is partially implemented, with some inaccuracies or delays in status updates. | • The tracking system is implemented effectively, updating claim status reasonably accurately and promptly. | • The tracking system is implemented exceptionally well, providing precision and reliability and real-time and accurate updates on claim status. | |
| | **0 – 4 Marks** | **5 - 7 Marks** | **8 - 9 Marks** | **10 Marks** | |

| PART 2 | | | | | |
|---|---|---|---|---|---|
| **Marking Criteria** | **Does not meet the required standard** | **Meets the required standard** | **Partially exceeds the required standard** | **Greatly exceeds the required standard** | **Feedback** |
| **Consistency and Reliability:**<br><br>**Unit Testing and Error Handling**<br><br>**[10 Marks]** | • Unit testing is not conducted, or error handling mechanisms are insufficient, leading to inconsistent or unreliable application behaviour. | • Unit testing is conducted to some extent, but error-handling mechanisms are limited in effectiveness. | • Unit testing is conducted effectively, covering key functionalities, and error handling mechanisms are adequate. | • Unit testing is conducted comprehensively, covering all critical functionalities, and error handling mechanisms are robust, ensuring consistent and reliable application behaviour. | |
| | **0 – 4 Marks** | **5 - 7 Marks** | **8 - 9 Marks** | **10 Marks** | |
| **Version Control:**<br><br>**Commit Frequency and Descriptive Messages**<br><br>**[10 Marks]** | • 2 Commits are infrequent, and commit messages lack clarity or description of changes. | • 5 Commits are somewhat frequent, but commit messages may lack clarity or detail. | • 7 Commits are reasonably frequent and commit messages to provide clarity and detail regarding changes. | • 10 Commits are frequent, and commit messages are clear, descriptive, and informative, demonstrating excellent version control practices. | |
| | **0 – 4 Marks** | **5 - 7 Marks** | **8 - 9 Marks** | **10 Marks** | |
| | | | | **Total** | |
